

# Activating and Deactivating License

## Activating License:

By purchasing a [direct license](#) of Master Slider WordPress ( not receiving Master Slider as a bundled plugin in a theme ) and activating the license on your website, you are entitled to access to extra premium features that are only available to direct buyers of Master Slider.

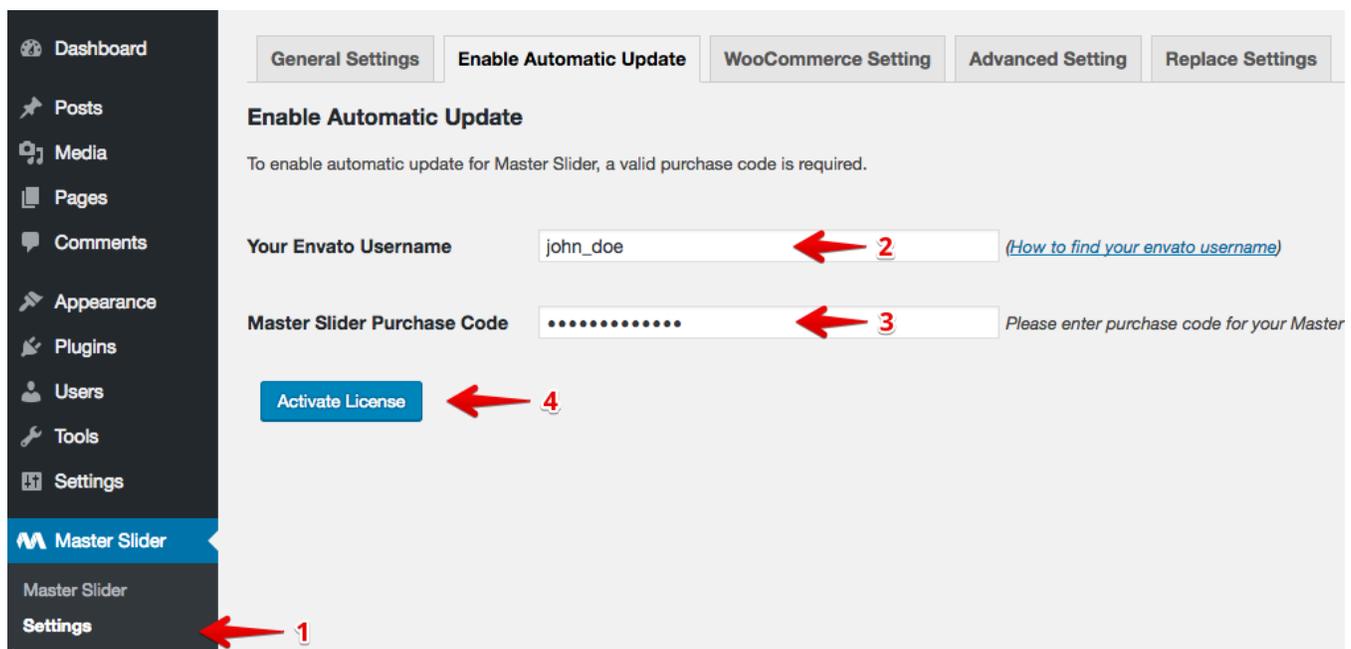

By activating your direct license you get:

- Instance and automatic update for Master Slider plugin
- Grant access to huge list of [premium sample sliders](#) (List is growing weekly)
- One click import and create slider
- Premium and [dedicated support](#)

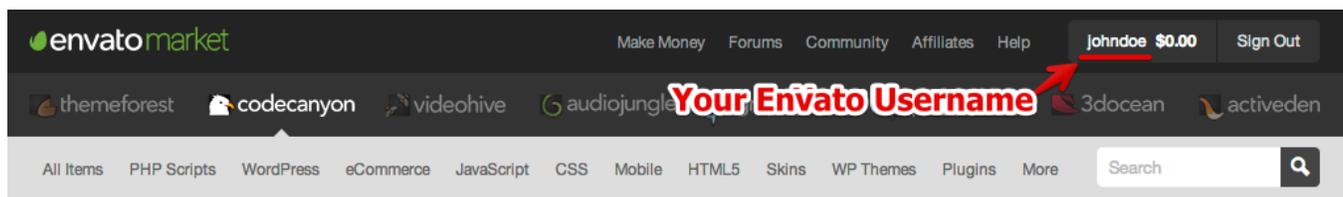

If you do not have any license of [Master Slider WordPress Plugin](#) , you can [purchase a license from here](#).

## How to Activate?

To activate your license on your website, navigate to [Master Slider > Setting](#) page in your WordPress admin panel, then under [Enable Automatic Update](#) tab insert your license credentials (Your [Envato username](#) and [Purchase Code](#)).

If you do not know about your [Envato username](#) and [Purchase Code](#) please follow the steps in following images:

## Deactivating:

If you have previously activated your license on a website, you no longer are able to activate the same license on another domain. So If you plan to use your license for another website, you are expected to deactivate the license from the previous one, and then you are able to activate it on the new website.

### Deactivating From Your Website:

If you have access to WordPress admin of the previous website, you can simply navigate to *Master Slider > Setting* page and click on *deactivate license* button. Now you can follow the same process and activate your license from the same page in *Master Slider > Setting*.

The screenshot displays the WordPress admin interface for the Master Slider plugin. On the left, a dark sidebar menu contains various WordPress sections, with 'Master Slider' and its 'Settings' sub-item highlighted. The main content area is titled 'Enable Automatic Update' and includes several tabs: 'General Settings', 'Enable Automatic Update', 'WooCommerce Setting', 'Advanced Setting', and 'Replace Settings'. Below the tabs, a message states: 'To enable automatic update for Master Slider, a valid purchase code is required.' There are two input fields: 'Your Envato Username' with the value 'john\_doe' and a link '(How to find your envato username)', and 'Master Slider Purchase Code' which is currently empty with a placeholder 'Please enter purchase code for your Master S'. At the bottom of the settings area, there is a blue 'Deactivate License' button and a white status box that says 'Your license is active'. Two red arrows with numbers are overlaid on the image: arrow '1' points to the 'Settings' link in the sidebar, and arrow '2' points to the 'Deactivate License' button.

### Deactivating and Managing License Remotely:

If you do not have access to your previous website (for instance, the website no longer exists), you can still deactivate your license by using the management options that are available in your user profile in [averta support center](#).

You can simply [register](#) and [access](#) to your user profile by your Envato account.

In your user profile, you have the list of purchases that you have made for Master Slider, and the websites that Licenses are activated on; plus, having option to deactivate each one by clicking on *Deactivate License* button.
